

SELLING ON-SITE AT IOWA FOOD COOPERATIVE

Our Franklin store offers a small retail area where we showcase a selection of products from our producers. We have dry goods shelves, two freezers, and a refrigerator. The fees are the same as the online format (17.5% for producers and 17.5% for consumers) and the amount you sell on-site is added to your bi-weekly check as a separate line item.

In order to sell onsite:

- **You must email onsite@iowafood.coop before bringing in product. This will allow staff to determine need and arrange for a drop off time if it isn't during our normal distribution hours. Please note: a majority of work by staff is done from home. Do not assume someone will be at the cooperative to accept your products if you show up unannounced.**
- **All items must be clearly marked with the producer name and priced**
 - **Price may be written on the product itself or affixed with a label**
 - **IF your item already has barcodes, you do not need to write the price**
- **Items sold will appear as a total, not broken down by item, on your check**
 - **IF your products are barcoded, you will receive an itemized list of products sold**
- **If you change your price online and would like to change the price of your item for onsite sales you must notify us via onsite@iowafood.coop**
- **This is a consignment agreement between the seller and the Iowa Food Cooperative. Products that do not sell and that have a short date/shelf life will be donated to volunteers or food pantry. Or you may pick up your unsold products.**
